

MOHAMED ELSAYED

Data Analyst | Power BI & Python | AI-Augmented Automation

Cairo, Egypt | +20 100 054 6767 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience across the full data lifecycle — collection, cleaning, analysis, and visualization — using Excel, Python, SQL, and Power BI. Skilled at using AI-assisted tools to build automation scripts, custom data-entry solutions, and streamlined reporting workflows that free up time for higher-value analysis. Comfortable translating complex datasets into clear, decision-ready insights for stakeholders, with growing experience in requirements gathering and cross-functional reporting that extends naturally into Business Analyst and Power BI Developer work.

CORE SKILLS

Python (Pandas, NumPy, Matplotlib, Seaborn) • SQL • Power BI (DAX, Data Modeling) • Excel (Pivot Tables, Advanced Formulas) • Requirements & Stakeholder Reporting • Process Automation • AI-Assisted Scripting • Google Apps Script • EDA & Dashboarding

EXPERIENCE

Monitoring & Evaluation Officer | Egyptian Red Crescent

Jan 2024 – Present

Cairo, Egypt

- Designed and managed M&E systems, performance indicators, and reporting frameworks that support project monitoring and stakeholder decision-making.
- Built interactive Power BI and Excel dashboards, improving data visibility and cutting down manual reporting effort.
- Coordinated with field teams and stakeholders to gather reporting requirements, ensure data quality, and align monitoring activities with program goals.
- Organized team workflows and tracked deliverables to ensure timely, audit-ready submission of reports and monitoring outputs.
- Built automation scripts and used AI tools to streamline data processing and recurring reporting tasks.
- Produced analytical reports and insights that supported evidence-based planning and program improvement.

Freelance Data Analyst | Remote — Various Clients

2023 – Present

- Conducted exploratory data analysis (EDA) for clients across multiple industries using Python and SQL.
- Designed interactive Power BI and Excel dashboards to track trends and KPIs for small-business clients.
- Automated Google Sheets workflows using AI-generated Google Apps Script, cutting down manual data-entry work for clients.
- Built custom web-based data-entry forms (HTML/CSS/JS + Google Apps Script) to replace paper-based capture, feeding directly into structured Google Sheets.
- Applied AI-assisted Python scripting to strengthen data-cleaning pipelines — deduplication, format normalization, and outlier flagging.
- Delivered sales and supply-chain analytics — identifying demand patterns, inventory inefficiencies, and supplier performance gaps using Python (Pandas) and Power BI.

Coding Intern — IoT & Data Visualization | EGSA

Jul 2022 – Sep 2022

- Built a real-time monitoring system using sensors for temperature/humidity collection and smoking detection.
- Designed a web interface to visualize environmental data using time-series charts.
- Applied Python for automation and data-logging processes.

KEY PROJECTS

Custom Web Application Data-Entry Forms

- Designed and deployed responsive web forms (HTML/CSS/JS) with Google Apps Script backends, enabling real-time submission into structured Google Sheets databases.
- Used AI tools to generate, debug, and optimize backend script logic, cutting development time.

Advanced Sales & Supply Chain Analytics Dashboard

- Built end-to-end analytics covering sales trends, demand forecasting, inventory turnover, and supplier lead-time evaluation using Python (Pandas, Matplotlib) and Power BI.
- Identified supply-chain bottlenecks and seasonality patterns, delivering recommendations that improved stock-planning accuracy.

Desktop Data Analysis Application

- Built a Python + Tkinter desktop app providing a GUI-driven workflow for data import, cleaning, EDA, and chart export — aimed at non-technical users.

EDUCATION

B.Sc. in Physics and Space — Helwan University, Cairo, Egypt | Sep 2018 – Sep 2024

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera
- Google IT Automation with Python — Coursera
- KPMG AU Data Analytics Consulting Virtual Internship
- PwC Switzerland Power BI Job Simulation
- Accenture North America Data Analytics & Visualization Virtual Experience
